Are you ready for Vienna?

A brief reminder of what's in store for you at the major software show of the year in this fascinating Austrian capital.

This is IBM's first ever Symposium featuring all four product shows under one roof. You get the best of DB2 & IMS Technical Conference, Lotusphere, Planet Tivoli and WebSphere at a one-ticket price.

This grand-scale event combines unique learning experiences with high-end networking for the whole IT community. Share five days of valuable information, high-tech knowledge, technical solutions and problem solving with the very best in the business.

We'll have demonstrations of more than 200 solutions, face-to-face meetings with key executives and developers, and a significant Business Partner community ready and willing to toss ideas around with you.

To make it easier for you to navigate the wealth of breakouts, labs, classes and tutorials, we'll have an on-site system to personalise your agenda. This way you can jump between tracks – or work out just when you can schedule free time for important networking.

Each week, the Symposium website will be updated with more sessions – plus details

of the tests available in our 'free certification' program. So don't forget to keep an eye on **ibm.com**/events/software/symposium2002

No other IT event offers so much value for money!

- Keynote presentations
- Over 300 breakout sessions
- Over 200 of the latest and best IBM software solutions
- Pre-conference tutorials
- Birds of a feather sessions
- Executive head-to-head sessions
- Technology previews
- Private demos
- Hands-on labs
- User group activities
- Free certification

And if that's not enough, there's the all important networking gala evening to round off a solid week of top-draw activity.

With just weeks to go, the IBM Symposium 2002 should be high on your list of priorities by now. You've seen all the exciting options on offer, now it's your turn to take action!

Join a unique gathering of minds – hungry for future solutions.
